GHOST CAMP

Hi, we're Ghost Camp. We're making a videogame called *Tales of Treachery*. It's a four player choose-your-own-adventure party game where one of you can't be trusted.

The game uses mobile devices as controllers, allowing you to play through a ten-minute randomised adventure with a simple swipe.

As a group you vote on which paths to take, the traitor amongst you secretly trying to ensure you make the wrong decisions. We hope you enjoy it!
